

Concrete Hopper

Concrete Hoppers - The self-dumping hopper attachment can automatically activate to both dump and release when the bumper release contacts the side of a dumpster. As soon as unloading is finished, the hopper could go back to original locked and upright position. This piece of machinery is likewise accessible together with a cable that allows operation from the seat of the forklift in order to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the tine truck. This particular product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish in order to maintain durability.
